Graffiti-resistant Wraps & City Beautification >>

WHY WRAP A CABINET?

BRINGING BEAUTY TO YOUR CITY

Clean Slate Group works with local artists, photographers and historic societies to create designs that capture each community's distinct energy and style. Apart from local art and photos, we can work with clients to create infographics, way-finding signage and even custom imagery and faux textures to blend a cabinet into its surroundings.

WHY WRAP A CABINET?

MATERIAL SPECS

Clean Slate Group (CSG) has teamed up with leaders in the vinyl industry to produce conformable anti-graffiti and graffiti-resistant vinyl wrap exclusive to CSG. CSG prints all cabinet wraps on a 2 mil (not millimeters) conformable vinyl, this material is non-flammable, self extinguishing, and utilizes grey opaque adhesive that will block substrate color from showing through. These wraps are laminated with an optically clear, UV protectant gloss laminate, that will preserve your investment by resisting and protecting against: spray paint, markers, adhesives and chemicals.

WARRANTY & EXPECTATIONS

Material Warranty - CSG warranties materials for 1-year from the date of installation.

Installation Warranty - CSG warranties installation for 1-year from the date installation.

Warranty Conditions - Material and Installation warranties are invalid under the following conditions:

1. Deterioration due to normal wear and tear.
2. Use with non-CSG products, accessories or parts.
3. A failure by either CSG, Econolite or its customer to maintain the Product in accordance with CSG's written instruction
4. Service performed by anyone who is not a representative of, or is not authorized by CSG.
5. Product or part that has been modified by the end user to significantly alter quality of the product without the written permission of CSG.
6. Accident, abuse, misuse, flood, fire, earthquake, immersion in liquid, excessive physical force or tampering, incorrect electrical charge, electrostatic discharge (ESD), excessive temperature [outside temp range given in data sheet] or humidity or exposure to moisture [beyond IP rating given in data sheet], corrosion, oxidation, neglect, improper installation or use, forces of nature, influence from chemical products or other acts beyond the reasonable control of CSG or other external causes.
7. In-field cabinets are damaged or show signs of existing corrosion which can impact installation success.

Life Expectancy - We inform communities to expect cabinets to look vibrant for 5 years.

NOTE: Cabinets installed by CSG in 2011 are still in the field and remain vibrant.

WHY WRAP A CABINET?

OUR WRAPS > PAINT & OTHER VENDORS

Clean Slate Group is the SOLE SOURCE of conformable anti-graffiti and graffiti-resistant material, which can resist most graffiti (reference Material Specs for more information).

Clean Slate Group's wraps and laminates instantly reduce maintenance costs for Public Works Depts. and Graffiti Abatement Programs.

With Clean Slate Group's large format, ultra high resolution printers, we can create nearly any image, art, or texture, opening the door to a variety of artistic mediums that were previously not possible.

Wraps are simple to swap out for a change of scenery, or if a panel is damaged, it can be replaced without incurring the cost of an entire new wrap.

The city of San Francisco
spends upwards of \$20 million a year on graffiti cleanup*,
with traffic signal cabinets being a frequent and costly target.

* San Francisco Chronicle, January 2016

WHY WRAP A CABINET?

EXPERT SERVICE FROM THE PROS

SIMPLE STEPS TOWARDS BEAUTY

Purchase Order Received - Econolite to CSG

With 500+ cabinets wrapped, Clean Slate Group's team has extensive experience in city beautification projects around the county.

Locations Determined - Dependent on Customer / Econolite

Photos and Cabinet Identification (model or measurements) - Econolite/Customer to CSG

Designs Determined - Dependent on Customer / Econolite

Files shared between Customer and CSG.

We can help facilitate an "All Call" for local arty, supplying legal forms and press releases for each project. Clean Slate Groups team of talented graphic designers will then help bring the selected artwork to life!

Design Complete - 1 to 2 Weeks (CSG)

Cabinet Design efforts typically take 1-2 weeks from receipt of files and design direction. In the event that approvals are required by Client or Econolite, the timeline will extend to accommodate the approval period.

Installation Complete - 4 to 5 Weeks (CSG)

- Print Prep
- Production
- Quality Control
- Shipping / Travel
- Installation
- Quality Control

With Clean Slate Group's network of expert installers, we can complete projects anywhere in the world. Upon Design completion, installation is typically completed within 2-4 weeks.

For individual orders over 50 cabinets in a single month, CSG will work with Customer and Econolite to establish a reasonable timeline.

For total Econolite orders over 200 cabinets in a single month, CSG will work with Customer(s) and Econolite to establish a reasonable timeline.
